Yeah, think they did that. They are trying to get personnel from the Farmington office to support.

Ok. Please instruct START to use the ER TDD until we establish an event specific one.  
Hopefully no later than Monday.

Thanks,

Ramon D. Albizu

We have a multi region ER in progress originating in CO and impacting NM, Navajo Nation and UT.

Have not had a chance to write. We have asked START to head out to Farmington to coordinate w Navajo EPA on DW sampling. Joe D is working up a plan to send 2 from Tempe AZ. I have not seen a CPW but they may be on the way. Also, STARTs will be using the Farmington, Navajo office space for the time being.

Randy is helping w coordination and will serve as a response point of contact. Rob Wise will deploy to Durango to checkin with the ICP. His role will be determined but for now he's a liaison between field efforts and ICP. More to come. Thanks!
